A HAPPIER, HEALTHIER YOU!

The Oxyfresh family has spent decades developing products that help people and pets live fuller, healthier lives, and people love those products. The same people who have brought you these great products are now bringing you Life Shotz via our sister company, 21TEN. Life Shotz is like nothing else on the market, and it's already changing lives. Find out how Life Shotz can work for you, and see what your nutrition is missing.

What You're Missing

Vitamin D

Do you work indoors? Do you live in a climate with wet or cold seasons? Are you older than 50? Do you avoid dairy products? If you answered yes to any of these questions, chances are you don't get enough vitamin D. Studies have shown that vitamin D affects the immune system, changes rates of cancer incidence, lifts mood, and plays a key role in insulin secretion. It's pretty much a wonder-vitamin, but most people don't get enough! That's why Life Shotz has 2,000 IUs of vitamin D.

Antioxidants

A freshly cut apple turns brown because of oxidation, and something similar happens in our bodies. Oxidation contributes to aging and can cause serious, long-term problems that affect cellular and total body health. Research has shown that the antioxidants found in certain foods can actually help to slow and prevent that process. That's why Life Shotz contains a unique blend of premium super fruits known for their antioxidant powers.

B Vitamins

Most people don't know that B vitamins are essential to metabolism or that they play a huge role in regulating energy. And those "crashes" you suffer after drinking caffeine or energy drinks? You don't need to suffer from the ups and downs of caffeine and sugar if your beverage gives you a perfect blend of B vitamins. That's why Life Shotz doesn't need added sugar or caffeine to keep you from crashing.

NBA legend Coach Phil Jackson gives unsolicited and unpaid endorsement to Life Shotz®

"We get a number of energy drinks provided by sponsors in this business. I chose 21TEN/Life Shotz because my doctor recommended it for my health. There are so many unknown additives to many of these drinks that after reading the ingredients I'm still wondering what's in it. Not so with Life Shotz.

In this business we are on the move for seven to eight months. We arrive at 3am many nights and the basketball staff is back on the move by 8am. I've used Life Shotz for the past six months and found that drinking coffee becomes unproductive as it depletes my adrenals. I found Life Shotz a comfortable, reliable boost for mental and physical energy while reducing the effects of stress.

In this weird world of plastic bottled water, I like the fact that it comes in a powder and I can choose to use a reusable bottle and limit the amount of plastic I use.
