ALL YEAR LONG, KEEP YOUR HOUSE SMELLING FRESH AND CLEAN

By Boyd Harrell, DVM

We love our pets no matter what season it is. And we're especially close to them — literally — in the winter months when they spend more time inside to escape inclement weather. Pet odors can be offensive and affect the way we interact with our furry friends. Hugging a smelly dog can be tough for any dog owner. Having a neighbor or family member comment on doggie odor as they walk past your dog's bed, or wrinkle their nose as they move past the cat box, or step back after peeking into the hamster cage can be embarrassing. Even the most attentive pet lover will have an unexpected olfactory experience sometimes. When that happens it's nice to have a safe, effective product to save the day.

5 Reasons to Choose Oxyfresh Pet Deodorizer

1. It Works!

When the need arises for odor neutralization you need a product that works — and that is exactly what happens when you mist Oxyfresh Pet Deodorizer over the offending odor. The odor is not simply temporarily covered up by strong-smelling aromatics like many of the available pet fresheners. Instead, the odor-causing molecules are quickly broken down with the exclusive ingredient Oxygene® into components that have no bad smell so the odor stays gone. It is even strong enough to work on skunk odor.

2. It's Safe!

Yes, Oxyfresh Pet Deodorizer is extremely safe. Safe enough that you can spray it in the air, on your furniture, on your pet's bedding, in the litter box, on cages and even on the pet without worry for either you or your pet.

Even if your pet licks off some of the Pet Deodorizer it is not a problem since the active ingredient Oxygene is the same effective ingredient used in the highly acclaimed breath freshening Oxyfresh Pet Oral Hygiene Solution.

PRODUCT CORNER

PET DEODORIZER

A completely safe, non-toxic way to remove disagreeable odors.

periodontal disease by age three. Called the “Silent Killer of Pets,” periodontal disease can cause bacteria to enter the bloodstream and infect the heart, liver and kidneys — shortening your pet’s life by two to five years.

3. It’s Convenient!

There is no need for you to keep several products on hand when Oxyfresh Pet Deodorizer can do the job of many. When you want to quickly freshen the air in your home, a kennel or a veterinary exam room, simply mist Pet Deodorizer directly into the air. If a pet has soiled an area or the litter box gets your attention, finish off the cleanup by misting Pet Deodorizer over the area.

4. It’s a Time Saver!

No matter how attentive we are, sometimes things happen. Like a pet soiling itself or rolling in something no one knew was in the backyard or along the walking path you took today. This can turn a clean, fresh-smelling pet into a walking cloud of bad aroma. A quick spray with Pet Deodorizer will eliminate the odors quickly, saving a great deal of time for dog groomers, veterinarians, kennel operators and pet owners alike. Spray between baths, touch up grooming, in kennels, etc.

5. It’s Guaranteed!

Pet Deodorizer, like all Oxyfresh products, comes with a 100% money back guarantee so there is never any risk for you to see for yourself just how well it works. As a veterinarian who has years of experience with Pet Deodorizer, I know it works and I can tell you that it works. But you won’t know for yourself until you experience it. So if you have pets, work with pets or know someone who has a pet, why not give it a try? You have nothing to lose except some undesirable odors. Because all pets come with undesirable odors, Oxyfresh Pet Deodorizer is for EVERY pet owner.

CLOSING THOUGHTS

Use versatile Pet Deodorizer wherever it’s needed in your pet’s environment to neutralize odors. It’s non-toxic and safe enough to use directly on your pet!
