Richard,

Speaking for your group last summer was a great experience and I did my best to deliver powerful value to your group. You may not know it, but the value you delivered to me was off the charts. You gave me 2 samples of your products when I spoke for your group.

1. Life Shots Juice
2. Primorye Stress Relief Plus

I did not take the product right away, instead I saved it. I knew I would be competing in the USA Memory Championship March 7<sup>th</sup> and I wanted any extra edge that I could get. I saved your products and began taking them 90 days before the tournament. All I can say is WOW, WOW and WOW!!

I am a big believer in the power of anti-oxidants as it relates to the memory. My clarity of mind and focus were noticeable. When I read the descriptions of your products, because what I know about the human mind - I knew that your products could really help. As far as the results at the tournament...well, I WON! I am the 2009 USA Memory Champion! Not only did I earn the title of #1 in the USA but I also set two new national records! :

- I memorized a deck of cards in 1 minute and 27 seconds (**NEW NATIONAL RECORD**)
- I memorized a 167 digit number in 5 minutes (**NEW NATIONAL RECORD**)

There is no one in the nation who can claim the title of 2009 USA Memory Champion other than me and no other person holds two national memory records. I can confidently claim that I am at the top of my field and I could not be a bigger fan of your product! I am recommending it to everyone and anyone who must have clarity, focus and a better memory.

Thank you for creating such an outstanding product for the mind and I am thrilled to offer my praise and recommendation for your juices.

Sincerely,

Ron White
